

SHIVAM SINGH

Software Engineer | Backend Developer (Java, Spring Boot)

✉ cvm.singh20@gmail.com 🔗 linkedin.com/in/shivam-singh-20a889189 📍 Uttar Pradesh, India, 226008

SUMMARY

I am a backend-focused Software Engineer with over 5 years of experience in maintaining and enhancing scalable Java-based applications. My expertise lies in Java, Spring Boot, Microservices, and performance optimization. I have a proven ability to reduce latency, improve system efficiency, and implement secure data processing solutions

KEY ACHIEVEMENTS

Enhanced System Efficiency

Optimized processing time by 70% using batch operations.

Achieved Near Real-Time

Reduced data latency from 10 minutes to 400 records per refresh.

Secured Data Exchange

Implemented encryption, strengthening data security for 100% of transfers.

Boosted System Security

Developed role access control, improving system security by 50%.

EXPERIENCE

Systems Engineer

Tata Consultancy Services (TCS)

📅 12/2021 📍 Lucknow, Uttar Pradesh

- Maintained and enhanced internal file upload and processing system used across organization
- Integrated external APIs to centralize metadata creation, tagging, and upload workflows
- Implemented bulk metadata creation, improving operational efficiency
- Optimized system using multithreading and batch processing, reducing processing time by 70–80%
- Reduced latency from ~10 minutes to near real-time (~400 records per refresh)
- Implemented RSA + AES encryption for secure data exchange
- Introduced role-based access control and validation mechanisms
- Enhanced system reliability through quality checks and validation logic
- Developed barcode validation logic and contributed to patent
- Provided production support ensuring high system stability

EDUCATION

Bachelor of Technology (B.Tech)

Babu Banarasi Das National Institute of Technology and Management

📅 08/2016 - 12/2020 📍 Uttar Pradesh, India
